10 million animals enter overcrowded shelters every year.

Euthanasia kills more companion animals than any other disease.

Average number of litters a fertile cat can produce in one year: 3
Average number of kittens in a feline litter: 4-6

79% of people DON’T KNOW when to fix their pets.

The best time to fix your pet is by 4 months to prevent accidental litters:
spay & neuter early.

50% of litters are not planned.

4-6 million are put to sleep

90% of animals entering shelters aren’t fixed

Statistic provided by the American Pet Products Association.

Dogs can have 2 litters a year:
Average number of litters a fertile dog can produce in one year: 2
Average number of puppies in a canine litter: 6-10.

Cats can have 3 litters a year:
Average number of litters a fertile cat can produce in one year: 3
Average number of kittens in a feline litter: 4-6.

Surprise!
Many people don’t know that cats can go into heat and get pregnant by 4 months and dogs by 5 months.
